

Master Ordering Number Representations to 100 A

Step 1

Make 3 numbers to 100 using Dienes.
Put each of them on a plate.

Step 2

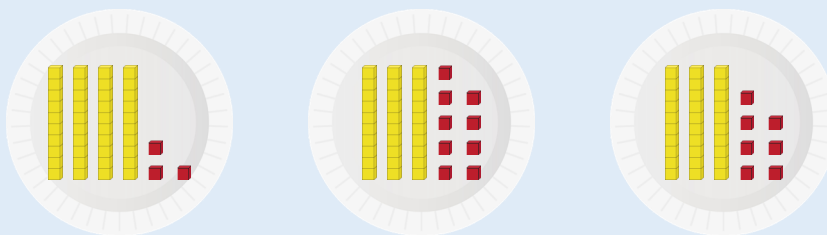

Use the stem sentences to say... ___ has **more** / **fewer tens** / **ones** than ___. The greatest number is ___ and the smallest number is ___

43 has more tens than 39 and 37. 39 has more ones than 37. The greatest number is 43 and the smallest number is 37

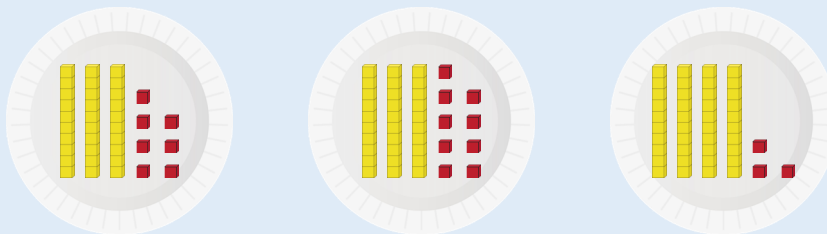

Step 3

Move the plates to order the numbers from greatest to smallest.

Step 4

Now, move the plates to order them from smallest to greatest. Did you need to move all of them?

Repeat the task with 3 new numbers. What do you notice?
