

Master Standard Partitioning (5 and 6 digits) B

Fluency 1

Complete the stem sentences.

| | | | | | | | | |
|--------|--------|--------|--------|--------|--------|--------|--------|--------|
| 10,000 | 20,000 | 30,000 | 40,000 | 50,000 | 60,000 | 70,000 | 80,000 | 90,000 |
| 1,000 | 2,000 | 3,000 | 4,000 | 5,000 | 6,000 | 7,000 | 8,000 | 9,000 |
| 100 | 200 | 300 | 400 | 500 | 600 | 700 | 800 | 900 |
| 10 | 20 | 30 | 40 | 50 | 60 | 70 | 80 | 90 |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 |

_____, _____, _____ and _____ combine to make _____

| | | | | | | | | |
|---------|---------|---------|---------|---------|---------|---------|---------|---------|
| 100,000 | 200,000 | 300,000 | 400,000 | 500,000 | 600,000 | 700,000 | 800,000 | 900,000 |
| 10,000 | 20,000 | 30,000 | 40,000 | 50,000 | 60,000 | 70,000 | 80,000 | 90,000 |
| 1,000 | 2,000 | 3,000 | 4,000 | 5,000 | 6,000 | 7,000 | 8,000 | 9,000 |
| 100 | 200 | 300 | 400 | 500 | 600 | 700 | 800 | 900 |
| 10 | 20 | 30 | 40 | 50 | 60 | 70 | 80 | 90 |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 |

_____, _____, _____ and _____ combine to make _____

_____, _____, _____ and _____ combine to make _____

Complete the stem sentences and draw the counters.

53,281 partitions into _____, _____, _____ and _____

766,434 partitions into _____, _____, _____, _____, _____ and _____

| | | | | | | | | |
|---------|---------|---------|---------|---------|---------|---------|---------|---------|
| 100,000 | 200,000 | 300,000 | 400,000 | 500,000 | 600,000 | 700,000 | 800,000 | 900,000 |
| 10,000 | 20,000 | 30,000 | 40,000 | 50,000 | 60,000 | 70,000 | 80,000 | 90,000 |
| 1,000 | 2,000 | 3,000 | 4,000 | 5,000 | 6,000 | 7,000 | 8,000 | 9,000 |
| 100 | 200 | 300 | 400 | 500 | 600 | 700 | 800 | 900 |
| 10 | 20 | 30 | 40 | 50 | 60 | 70 | 80 | 90 |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 |

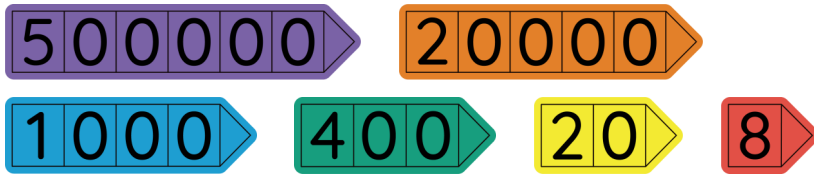

209,710 partitions into _____, _____, _____ and _____

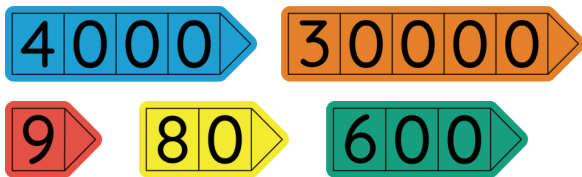

Master Standard Partitioning (5 and 6 digits) B

Fluency 2

Combine using the equations.

$$500,000 + 20,000 + 1,000 + 400 + 20 + 8 = \underline{\hspace{2cm}}$$

$$4,000 + 30,000 + 9 + 80 + 600 = \underline{\hspace{2cm}}$$

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} + 6 + 2,000 = 42,206$$

$$700,000 + 40,000 + 3,000 + \underline{\hspace{2cm}} + 10 + 2 = 743,512$$

$$600,048 + \underline{\hspace{2cm}} = 608,048$$

Fluency 3

Partition using the equations.

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} + \underline{\hspace{2cm}} + \underline{\hspace{2cm}} + \underline{\hspace{2cm}} = 94,538$$

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} + \underline{\hspace{2cm}} + \underline{\hspace{2cm}} + \underline{\hspace{2cm}} + \underline{\hspace{2cm}} = 157,643$$

$$663,894 - \underline{\hspace{2cm}} = 603,894$$

$$800,371 - \underline{\hspace{2cm}} = 800,071$$

$$79,467 - \underline{\hspace{2cm}} = 9,467$$

$$32,019 - \underline{\hspace{2cm}} = 32,009$$

Fluency

Master Standard Partitioning (5 and 6 digits) B

Fluency 4

Fill in the missing numbers.

$$257,948 - \underline{\hspace{2cm}} = 250,948$$

$$257,948 - \underline{\hspace{2cm}} = 257,908$$

$$257,948 - \underline{\hspace{2cm}} = 57,948$$

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} + \underline{\hspace{2cm}} + \underline{\hspace{2cm}} + \underline{\hspace{2cm}} + \underline{\hspace{2cm}} \\ = 257,948$$

Fluency 5

Fill in the missing numbers.

$$35,390 - \underline{\hspace{2cm}} = 30,390$$

$$800,000 + 40,000 + 7,000 + \underline{\hspace{2cm}} + 20 + 1 = 847,621$$

$$500 + 70,000 + 60 + 4,000 = \underline{\hspace{2cm}}$$

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} + \underline{\hspace{2cm}} + \underline{\hspace{2cm}} + \underline{\hspace{2cm}} = 906,283$$

$$188,703 - \underline{\hspace{2cm}} = 108,703$$

$$3,000 + 90 + \underline{\hspace{2cm}} + \underline{\hspace{2cm}} + 200 = 73,294$$

$$65,118 - \underline{\hspace{2cm}} = 5,118$$

$$400,000 + 400 + 4,000 + 4 = \underline{\hspace{2cm}}$$

$$170,205 + \underline{\hspace{2cm}} = 170,285$$

Fluency 4

Fill in the missing numbers.

$$257,948 - \underline{\hspace{2cm}} = 250,948$$

$$257,948 - \underline{\hspace{2cm}} = 257,908$$

$$257,948 - \underline{\hspace{2cm}} = 57,948$$

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} + \underline{\hspace{2cm}} + \underline{\hspace{2cm}} + \underline{\hspace{2cm}} + \underline{\hspace{2cm}} \\ = 257,948$$

Fluency 5

Fill in the missing numbers.

$$35,390 - \underline{\hspace{2cm}} = 30,390$$

$$800,000 + 40,000 + 7,000 + \underline{\hspace{2cm}} + 20 + 1 = 847,621$$

$$500 + 70,000 + 60 + 4,000 = \underline{\hspace{2cm}}$$

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} + \underline{\hspace{2cm}} + \underline{\hspace{2cm}} + \underline{\hspace{2cm}} = 906,283$$

$$188,703 - \underline{\hspace{2cm}} = 108,703$$

$$3,000 + 90 + \underline{\hspace{2cm}} + \underline{\hspace{2cm}} + 200 = 73,294$$

$$65,118 - \underline{\hspace{2cm}} = 5,118$$

$$400,000 + 400 + 4,000 + 4 = \underline{\hspace{2cm}}$$

$$170,205 + \underline{\hspace{2cm}} = 170,285$$
